December 03, 2007

Dear Folks at Colvin Run Citizens' Association,

I'm writing to thank you for your help with Project USS KEARSARGE. Without you and your support, we would not have been able to bring the Sailors so much cheer from back home.

As usual, you have risen to the challenge before you. I am overwhelmed with your outpouring of support for the USS KEARSARGE, its many Sailors and Heart of America Quilt's dear Advisor Master Chief Sullivan.

Because of the nature of the KEARSARGE and its missions, I have had limited email contact with Master Chief Sullivan. When his mission changes from secret to humanitarian, he emails me to inform me the kinds of things that 'Santa' has brought.

I can tell you without doubt that the items we have sent have brought cheer and a sense of 'family' to these men and women who are far from their families. It brings me great joy to know that we have placed smiles on their faces.

Thank you. Thank you for being a constant support to the Heart of America Quilt. Thank you for supporting our troops and, as always, thank you for trying so hard to teach me to dance!

All of my best,

Susan Morissette
